WASHINGTON, June 11.—The president's address last Friday to the Mexican editors made public today is expected to be recognized as one of his most important war utterances. The address dealt almost wholly with pan-Americanism by agreement among pan-Americans. It was obvious that the president took the opportunity to send back to the Mexicans through their representative newspapers editors, a personal message to emphasize the disinterestedness of the United States in all of its part of the fight for a world's democracy. As he practically addressed the Mexican people the president wished to give them an opportunity for publication in Mexico first.

COURAGE OF THE COMBATANTS  
CALLS FORTH THE ADMIRATION  
IN OFFICIAL GENERAL ORDERS

(By Associated Press.)  
PARIS (Monday) June 10.—An official statement tonight praises the fighting of the marines and other Americans last week northwest of Chateau Thierry. It said: "The American infantry has showed itself very skillful in maneuvering. The courage of officers and men bordered on temerity. One lieutenant, who was hindered from advancing by a machine gun, threw himself almost alone into the wood where the gun was established. He killed the crew and returned with the gun over his shoulders. The courage of the combatant troop is equalled only by the magnificent coolness of the ambulance men, who amidst a hail of bullets, gave first aid to wounded before carrying them to the dressing stations."

A Rousing Send-Off  
For the Servian Boys

The Servian boys will be given a big send off tomorrow morning for everybody who appreciates loyalty and good citizenship will turn out to send the lads off with a smile. Captain Chris. Dowler, of the Home Guards, who will have charge of the arrangements has completed every detail towards giving the recruits a rousing reception. As the train moves out every whistle in camp will turn loose and those who are not able to go to the station will have the satisfaction of mentally wishing the boys a happy and safe voyage. The Musicians' union has volunteered to turn out in force and the Servian Young Men's society with its banners and 150 members who are off shift will be there. The Italian citizens will have their colors out and every organization that can spare a representation will be in evidence. At the depot each volunteer will receive a comfort kit as a memory of the fact that Tonopah stands behind them throughout the war and to re-

mind them that the boys at home are thinking of those who are away. The kits are the work of the Junior Red Cross which makes them under direction of Mrs. Hugh Brown, and the distribution will be in the hands of the Elks who furnish the funds to buy the filling for the packages which every soldier deems the acme of luxury.

Organizations are urged to report at the junction of Main street and Florence avenue at 8 o'clock or as soon after that as convenient that the line may be formed in the following order: Musicians' union, Servian Young Men's society and volunteers, Home Guard, Boy and Girl Scouts, Red Cross ladies, Red Cross Juniors, and citizens and representatives of other organizations.

The French engaged in violent combats on the right wing with large forces concentrated by the enemy who were able to make a gain. The French withdrew their line to the west and south of Ribecourt.

BATTLES

The hottest point was at Belleau Wood, where a German regiment inflicted severe losses. It repulsed the Americans as far as the edge of the wood in a fight at close quarters with hand grenades and bayonets. Parts of the American division, notably the naval brigade, advanced at dawn on the 8th in successive waves. We allowed the enemy to approach closely, near the edge of the wood, where they were caught in front and on both flanks by a withering machine gun and artillery fire. Only a few escaped by surrender or hasty flight rearward. Heaps of American dead lie in front of the wood."
